NON-WOVEN PRODUCTS

Anti-Microbial 3 Layer Non-Woven Fabric

Vital role of Antimicrobial fabric is to resist bacteria, fungi and algae. It contains active content of anti-microbial additive which interferes with the microbes cell metabolism, such that it cannot reproduce itself and hence keeping the product made of it fresh, hygienic and germ-free.

Hydrophilic Non Woven Fabric

Hydrophilic material is used for products that are made for absorption of liquids and moisture, but must retain original strength and form. This fabric causes no stimulation or allergy to human body. It is a perfect material fabric for making sanitary napkin for women and children.

Meltblown Non-Woven Fabric

Surgical face masks are the masks worn by healthcare professionals and patients at the healthcare centres to avoid the cross contamination of germs and infectious diseases.

- N95/FFP2 Mask without Respiratory Valve with Headloop
- N95/FFP2 Mask without Respiratory Valve
- Surgical Face Mask
